

MAJOR DEPARTMENT STORE CHAIN

Industry : Retail

Headquarters : Quebec - Canada

Stores : 9

Today, this Major Department Store Chain, continues to innovate thanks to its customers -the heart of their success. They continue growing and expanding their presence both geographically, as well as in the products they carry.

With the success of its stores also comes the threat of theft and embezzlement; management was looking for a scalable solution to assist with risk mitigation and security monitoring.

WHY ISS ?

- ✓ Most comprehensive solution for the security and customer management needs of the stores.
- ✓ Global scalability and a number of additional features that can be customized as the need arises to enhance the level of security.
- ✓ Benefit of understanding how its customers move through its stores.
- ✓ Solution is powerful and robust enough to handle the amount of data necessary for this enterprise level.

ADDITIONAL BENEFITS

A proven system to cover two floors of shopping space.

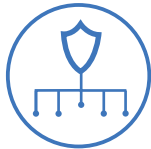

In hybrid mode, the system provides support for up to 100 cameras

Running 90 PTZ cameras.

30Fps and 1080P gives the client the best quality possible.

POS monitoring system in addition to a centralized data hub which allows remote and mobile access.

Six cameras specifically for people-counting which covers multiple zones.

RESULTS

- The design and implementation has met this Department Store Chain's needs by providing simultaneous views of any camera from any location.
- Telephone voice alarm and email notification.
- Monitoring individual location utilizing an event logging facility.
- Remote access and admin capability for one centralized security office.
- Integrating the digital CCTV surveillance system with synchronized POS transaction telemetry.

We are thrilled with the capabilities of the system and look forward to expanding the system and our relationship with IADVR and ISS into our existing and new locations. Without the right foundation, it is impossible to be innovate.
